

Lottery station

Feeling lucky? Lottery stores are the most popular joints in any metropolitan. Over 7,500 units of IAdea 10" smart signboard were deployed throughout lottery stores in Japan. Where do you find another media player provider with less than 0.1% failure rate guaranteed?

Menu board

IAdea enable your customers to visualize menu options, special promotions and appetizing videos to leverage business and increase sales through cross and up selling opportunities within your dining and F&B business.

Retail

A vibrant and engaging retail customer experience is the #1 priority for all retail businesses. From our smallest countertop displays to robust 4K players, IAdea creates a digital customer journey through your store.

Corporate communications

Whether it's a company-wide announcement or a conference room scheduling management, engagement with employees has never been easier, thanks to the innovative corporate communications solution from IAdea.

Interactive advertising

As of today, Dermalogica has received over 320 awards worldwide. Just like Dermalogica in their field, IAdea is the number one choice of brand in ours. When Dermalogica meets skin, skin health is redefined. When IAdea solution greets Dermalogica customers, customers simply love it. How do we do it?

Enabling Intelligent Applications

IAdea strives to enable intelligent applications that touch every aspect of your business – customer satisfaction, employee productivity, operation efficiency and most importantly, enhanced quality of overall digital experience.

We are the compute engine behind more than 200,000 displays worldwide. Whether your business in retail or corporate communications, workplace management or transportation, work with us and be a part of our award-winning team.

Must-follow retail success KOTON + IAdea

Award-winning retail brand, KOTON, has recently upgraded its digital signage system to IAdea and Laud Media. Originated from Turkey, KOTON is in 25 countries with 450 stores, delivering not only the richest fashion collection but also the most captivating advertising content to its fans around the world.

Better commute experience for passengers – transform with IAdea in-train solution

Jakarta Commuter Rail connects the majority of metropolitan, including Jakarta and Surabaya. Before IAdea came along, there was an existing in-train digital signage system. Unfortunately, the existing solution resulted in a high failure rate due to the low-cost but also low-quality solutions chosen previously. With the upgrade to IAdea, advertisers can finally increase revenues from in-train advertisement.

The one and only True 4K- XMP-7300

And more

- 1) HDMI 2.0 certified. Support 4K@60fps
- 2) Wide operation temperature -20–50°C
- 3) Gigabit Ethernet, wireless 802.11 b/g/n
- 4) True 4K playback for video/image/HTML5 format
