ACCRUENT

IAdea

POWERING QUALITY EXPERIENCES & PRODUCTIVITY
with IAdea Workplace Digital Signage Technology

Intuitive and efficient room booking on devices that make workplace wayfinding a breeze, with fully-featured multitype device management tools for a workplace experience that's simply just better.

IAdea and Accruent offer a workplace management solution that enhances your operations, boosts productivity, elevates facility efficiency, and augments the employee experience. IAdea room booking panels and wayfinding panels—paired with EMS Software—are both agile and technologically-advanced, simplifying employee-to-facility engagement for greater convenience.

TAP. BOOK. MEET.

Eliminate tedious space booking experiences and keep your employees focused on what's important: their work. Advanced room booking and kiosk technology transforms your digital workplace.

FITS PERFECTLY INTO EXISTING ENTERPRISE SECURITY INFRASTRUCTURE

Integrate easily with corporate security infrastructure. Manage global deployments from any connected workstation.

## SMART IoT ELEVATES THE WORKPLACE EXPERIENCE

Designed with aesthetics in mind for the professional workplace. Perfect for immediate room status information and easy wayfinding.

REDUCED DEPLOYMENT TIME & MAINTENANCE COSTS

Purpose-built, thoroughly tested and certified hardware for enterprise settings, drastically simplifying deployment and reducing G&A costs.

The IAdea and Accruent joint solution is flexible enough to facilitate a variety of different integrations and powerful enough to meet all types of workforce needs for the return to work. This multi-faceted solution enables the digital transition from a traditional office to 'any space, any place.' Taking full advantage of new technology, it supports the increasingly mobile workforce, enabling a future-focused workplace and workforce dynamics.

ROOM BOOKING

- Compatible with standard company-issued HID and NFC cards, as well support for HID mobile access for easy check ins and outs.
- Clutter-free device deployments with support for PoE; easy single-cable installations.
- Ambient 360º halo light clearly gives users at-a-glance info on room occupation, visible even from afar.
- Well-crafted modern design with zero-gap wall, window or glass mounting effortlessly fits into any enterprise setting.
- Physical access control enhances on-premises security in privacy-sensitive meeting spaces.
- Support for QR Code enables touchless check-ins.

WAYFINDING

- Rapidly locate a destination and find the quickest route or browse the directory to find what you need.

- Easy access to the latest space occupancy status, driving work productivity and enhancing workplace experience.

- Flexible deployment with support for portrait or landscape modes.

- Tempered glass and anti-scratch enhancements better withstand daily use and frequent user interactivity.

- High-performance processers tote a smooth, responsive and vibrant user experience.

DEVICE MANAGEMENT

- Device alerting and notifications for irregularities to help mitigate downtime.

- Centralized holistic device management from a single intuitive interface

- Device maintenance and firmware upgrade scheduling reduces impact to operations.

- From SMBs to global enterprises, there's no limit to the devices on your network.

- Remote deployment, management, and troubleshooting can be done in batches or on a device-by-device basis.
