IAdea 10 Inch Room Booking Panel Series

IAdea room booking panels operate 365 days of the year and are easy to support. Consumer panels and tablets are just not designed for this kind of prolonged usage. Planon and IAdea partnered solution offers facility managers a room management system that is quick to deploy and a safe workplace.

Elegant light bar with soft illumination

10-Point multi-touch screen for easy interactivity

Single cable PoE allows for an easy and tidy installation

2.8 cm slim design with zero-gap flush and secure mounting options

Key features include:

High Visibility Status Light

Offers a clear indication of meeting room status. Red for occupied, green for available and yellow for soon be occupied.

Clean Installation

Single PoE cable with designated cable routes for clean, organized, and versatile installation.

Remote Device Management

First-time setup of your IAdea room booking panels is drastically simplified, while ongoing monitoring, management and troubleshooting can be done with ease in just a few clicks.

10-Point Multi-Touch

A highly responsive touch-screen ensures a consistent room booking user experience for users.

Perfecting the Essentials of Room Management

Touch. Book. Meet.

No more time-consuming typing and submitting via a website. Instead, increase operation efficiency by using touch screen to book meeting room ad hoc. Designed specifically for those fashionable glass meeting rooms, the glass mount allows for simple installation while keeping the glass as pristine as possible.

Sleek Design That Elevates Any Workspace Interior

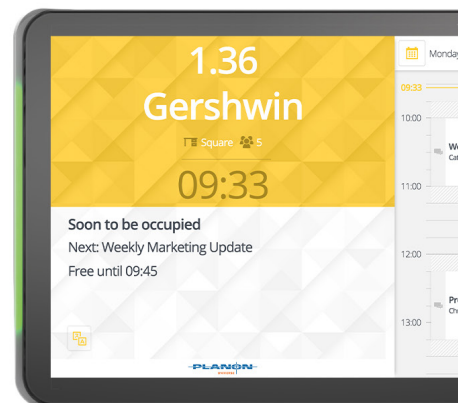

With a sleek brush metal finish, elegant design, built-in cable management, and single-wire installation, IAdea room booking panels radiate a professional and stylish impression. Its beautiful halo light helps teams locate available meeting spaces at a glance while creating a vibrant mood in the workplace.

Deploy and Manage Directly from the Cloud

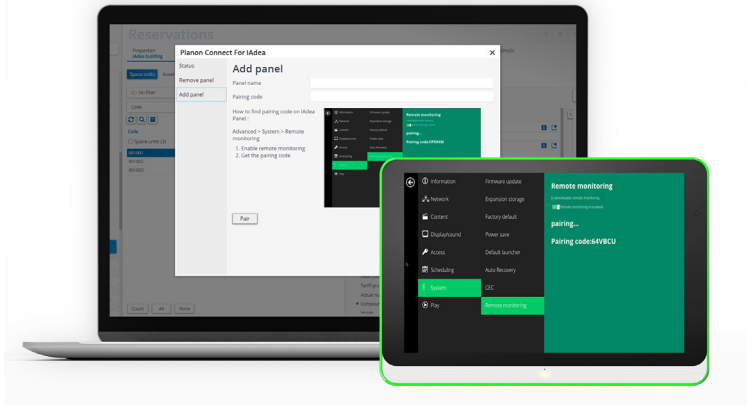

Planon Connect For IAdea

Planon Connect For IAdea: Remote Device Management Service

IT staff already have enough things to keep their eyes on, let alone another third-party management application. Handily, the Planon Connect for IAdea plugin comes fully integrated, accessible directly through the Planon platform for effortless first-time setups, remote management, monitoring and troubleshooting without the need for third-party software or onsite staff.

Designed for Speedy Deployments

Gone are the days of lengthy individual device setup; IAdea's room booking panels are specifically designed for speedy setups. IT staff can easily make use of the simple in-platform pairing procedure to get all their room booking panels connected and useable in a matter of no time.

Greater Energy Efficiency with Automated Screen On and Off Scheduling

Uphold your environmentally-friendly credentials thanks to automated screen on and off scheduling.

Easily define peak and off-peak times in the scheduler for screens to automatically switch off when they are not being used, no touch of the power button required. Not only is a better for the planet, but it is better for your budget too.
