# Connect your people, places, and spaces

Easily modernize your workplace

Today, people work from everywhere — from the living room to the office to the airport and back again. When the office is the best place for teams to connect, the Appspace platform can help book rooms, desks, parking spots, and other resources so employees can get what they need to work best while keeping things flexible.
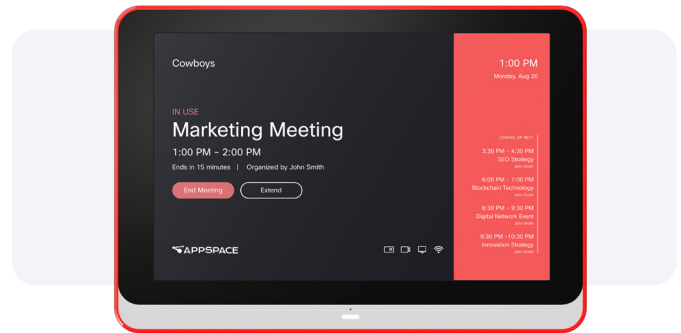

With Appspace and IAdea, organizations have a solution that ensures it is easy to manage and book spaces when employees need it. With an easy-to-install room booking panel and the power of the Appspace platform, organizations will have a streamlined process that lets team members book whatever they need from wherever they are with clear availability options and instructions.

- **Easy to use**
  Simple set-up in both Appspace and installation of the IAdea room booking panel

- **Always on brand**
  Book resources, check-in, or extend reservations from anywhere with the Appspace app or on the spot via the IAdea room booking panel

- **Optimize your workplace**
  Integrates with your existing providers
