IADEA ROOM BOOKING TECHNOLOGY

For efficient space management and innovative workplace strategies that are aligned with the changing needs of enterprise.

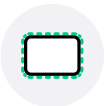

www.IAdea.com

IAdea 10 Inch Room Booking Panel Series

IAdea room booking panels operate 365 days of the year and are easy to support. Consumer panels and tablets are just not designed for this kind of prolonged usage. Planon and IAdea partnered solution offers facility managers a room management system that is quick to deploy and a safe workplace.

Key features include:

Premier Design for Meeting Room Management

360° status projection provides an elegant soft illumination ring, offering high visibility while enhancing aesthetics

Workplace Access Control

Combines room booking panel, card reader, and door lock into one elegant room panel

HID Mobile Access

A quick "Tap" with your mobile or "Twist and Go" efficiently unlocks doors, checks-in and out of meetings

Visitor Management

Simplify attendee entry with QR Code check-in using the 8 MP optical scanner

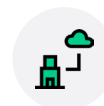

Authentication Options

Manage room entry through verifying company NFC / HID ID badges

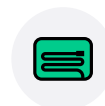

Voice Communication

Directly speak to support through echo-cancellation microphone and 2 W speaker

Enterprise Security

Google Android 12, ISO27001, 802.1x, and network encryption protection

Clean Installation

Single PoE cable with designated cable routes for clean, organized, and versatile installation

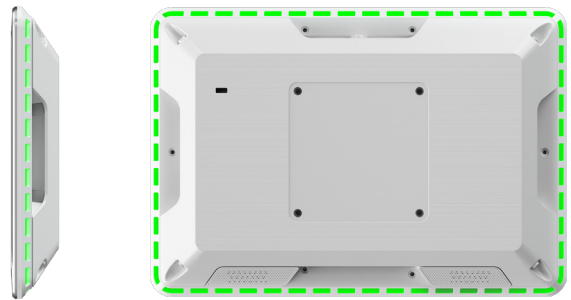

Perfecting the Essentials of Room Management

Touch. Book. Meet.

No more time-consuming typing and submitting via a website. Instead, increase operation efficiency by using the touch screen to book a meeting room ad hoc. Designed specifically for those fashionable glass meeting rooms, the glass mount allows for simple installation while maintaining the glass's pristine appearance.

Sleek Design That Elevates Any Workspace Interior

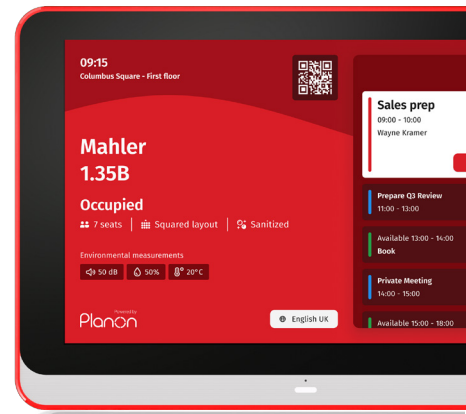

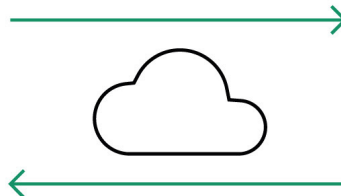

With a sleek brush metal finish, elegant design, built-in cable management, and single-wire installation, IDea room booking panels radiate a professional and stylish impression. Its beautiful halo light helps teams locate available meeting spaces at a glance while creating a vibrant mood in the workplace.

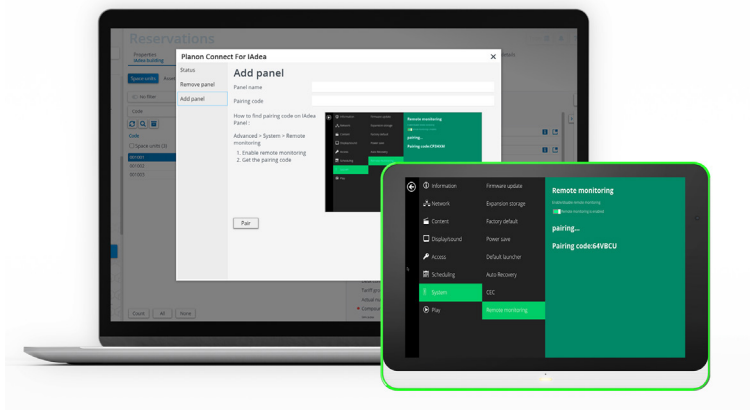

Deploy and Manage Directly from the Cloud

Planon Connect For IDea

The Planon Connect for IDea plugin is fully integrated into the Planon platform, enabling effortless setup, remote management, monitoring, and troubleshooting without the need for third-party software or onsite support.

Designed for Speedy Deployments

Gone are the days of lengthy individual device setup; IAdea's room booking panels are specifically designed for speedy setups. IT staff can easily make use of the simple in-platform pairing procedure to get all their room booking panels connected and usable in a matter of no time.

Greater Energy Efficiency with Automated Screen On and Off Scheduling

Uphold your environmentally-friendly credentials thanks to automated screen on and off scheduling. Easily define peak and off-peak times in the scheduler for screens to automatically switch off when they are not being used, no touch of the power button required. Not only is this better for the planet, but it is also better for your budget.

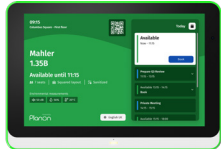

Planon Connect For IAdea

	Function	Description
Deployment	Rapid device pairing/unpairing	Enter the 5-character pairing code and your room booking panel is paired in a matter of moments.
Monitoring	Device status dashboard • Device Heartbeat • Mac Address • IP Address • Content URL	An intuitive dashboard with all the need-to-know information exactly when you need it.
Management	Remote device reboot	Restart your panel with just the click of a mouse.
	Schedule screen on/off	Easily create a schedule for your panels' screens to automatically switch on and off, no touch necessary, with the added benefit of energy savings.

Enterprise Security Solution

IAdea Room Booking Panels lead the smart workplace industry with an N-2 operating system that features the latest security updates from Google to fulfill strict enterprise IT requirements. IAdea is also certified with the internationally recognized ISO 27001 Information Security Management Standard, making sure every IAdea product and service meets the highest security standards.
