How to ensure a desk for employees in organizations using free seating policies?

A cost-efficient desk booking solution for organizations of all kinds

Day 1

This is Marcel. He is a customer success manager working at JCBK Inc. The company recently implemented a free seating policy meaning that no employee has a fixed desk anymore.

Marcel is not worried, as he is sure that he can locate an available desk near those of his colleagues needed for a joint project.

When Marcel arrives at the office, all desks appear to be taken. An even bigger issue is that he has no idea where to find his teammates nor collaborators.

After much search, Marcel finds an available desk in another department far away from his teammates. His colleagues are still nowhere to be found. In order to get everyone together for idea sharing and decision making, Marcel has to schedule a meeting.

Day 2

Marcel goes to work at 07.00 AM to be sure to get a desk, and preferably near his colleagues.

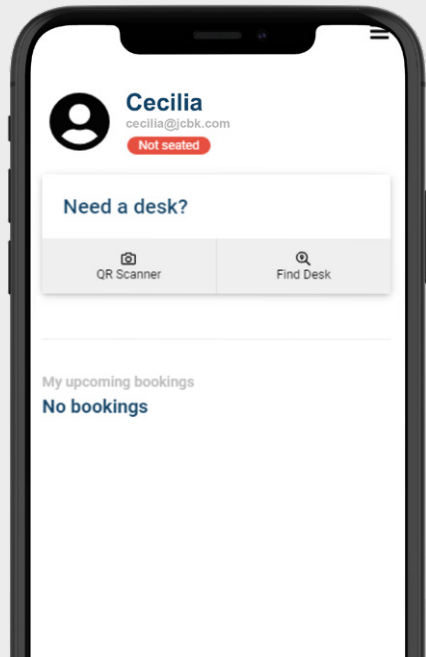

When he arrives at work – nervous, tired and frustrated – Marcel bumps into his colleague, Cecilia.

She tells him about a new booking system enabling desk reservations and location of colleagues which has made her working life easier.

The desk booking system allows Cecilia to reserve a desk for the current or following day. Via her phone she can locate her registered colleagues and reserve a desk next to them. Thus, the system is timesaving and facilitates collaboration.

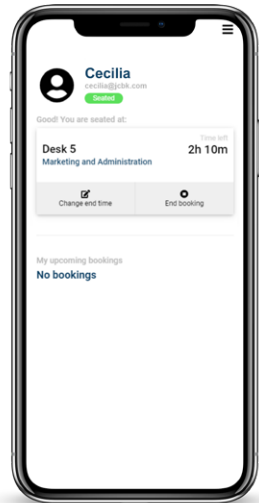

Cecilie shows how to book a desk:

1. Choose your section

2. Find your colleague's reservation

3. Book your desk

Marcel enters the desk booking system from his phone. Then he quickly locates his colleague, Jacqueline, with whom he's working on a project.

Jacqueline is located on the third floor, desk 29. Via his phone, Marcel books the desk next to her. Another possibility is simply tapping the device on the desk, and the desk is immediately booked.

Marcel is very pleased with the desk booking system, which has proved to be both practical and timesaving. Once again, he can concentrate on the tasks at hand.

The end.

A Desk Booking Solution facilitates collaboration and ensures employees a desk!

JCBK Inc. chose to introduce free seating to enhance collaboration as more and more activity based.

What the organization didn't take into consideration was the fact that without a system, the employees had no way of knowing if they would have a desk the following day, nor where their colleagues would be seated.

The desk booking system includes:

- ✓ Desk bookings in advance or on the spot
- ✓ Overview of available desks within the organization
- ✓ Overview of colleagues' desk reservations
- ✓ Filter options for those seeking desks with specific criteria
- ✓ Desk booking device with LED light which indicates availability

Desk booking solution provided by Pronestor & IAdea

Pronestor & IAdea have joint forces to deliver a cost-efficient solution that caters to organizations of all kinds.

Pronestor Workspace (software)

- Booking system accessible via smart phone
- Pre-registration for first time usage
