

# WMK-2200

## Workspace Management Kiosk

Tailored for dynamic office layouts.

### Cost-Effective Hot-Desking

Efficiently manage multiple areas with a single kiosk, eliminating the need for individual screen per desk.

### Broad Software Compatibility

Tested and certified compatibility with leading software for desk booking, visitor management, and wayfinding.

### Modern, Durable Design

Enhances your workspace with its sleek, durable design, crafted for modern office environments.

### NFC/HID Authenticated

Embedded badge reader guarantees space check-in exclusively to those with confirmed bookings.

### Future-Proof Solution

Feature-rich hardware in a single kiosk stand offers a hassle-free, future-proof workspace management solution.

# Elevating Workspace Efficiency and Experience

## Elevate with Every Touch & Scan!

### Optimize Desk Management for Your Hybrid Workplace

Tailored for dynamic office layouts, the kiosk enables effortless desk reservation, supporting hybrid work models by allowing employees to book spaces on an as-needed basis, minimizing unused workstations and maximizing room for collaboration.

NFC  
HID

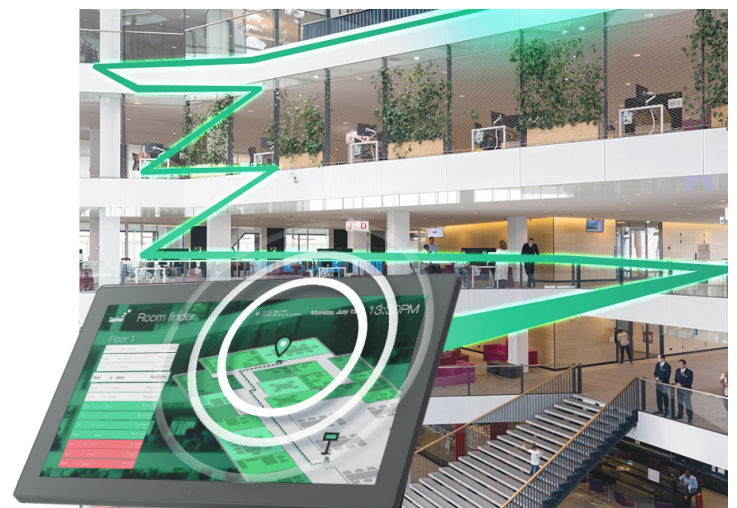

### Seamless Access, Secure Spaces: Elevate Visitor Experience

The kiosk serves as a central touchpoint for visitors, simplifying the check-in/out experience. It upholds site policy by validating visitor details through NFC/HID scans, orchestrating a fluid and managed guest flow, critical in maintaining workspace harmony and upholding social distancing measures when necessary.

### Guiding Your Journey: Interactive Wayfinding at Your Fingertips

Beyond booking and authentication, the kiosk acts as an interactive guide, offering wayfinding assistance to employees and visitors alike. It simplifies navigation through complex office layouts or large campuses, enhancing user experience by directing users to their booked spaces, meeting rooms, or amenities, thereby reducing confusion and saving time.

# A centralized and interactive system designed to streamline the management of desk space and facilitate various workplace-related tasks.

## 24/7 Operations

- ▶ Display space booking status on a map view

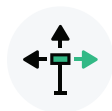

## Resource Reallocation

- ▶ Repurpose staff for higher-value tasks

## Instant Visitor Service

- ▶ Self-Service Check-In
- ▶ Visitor Badging

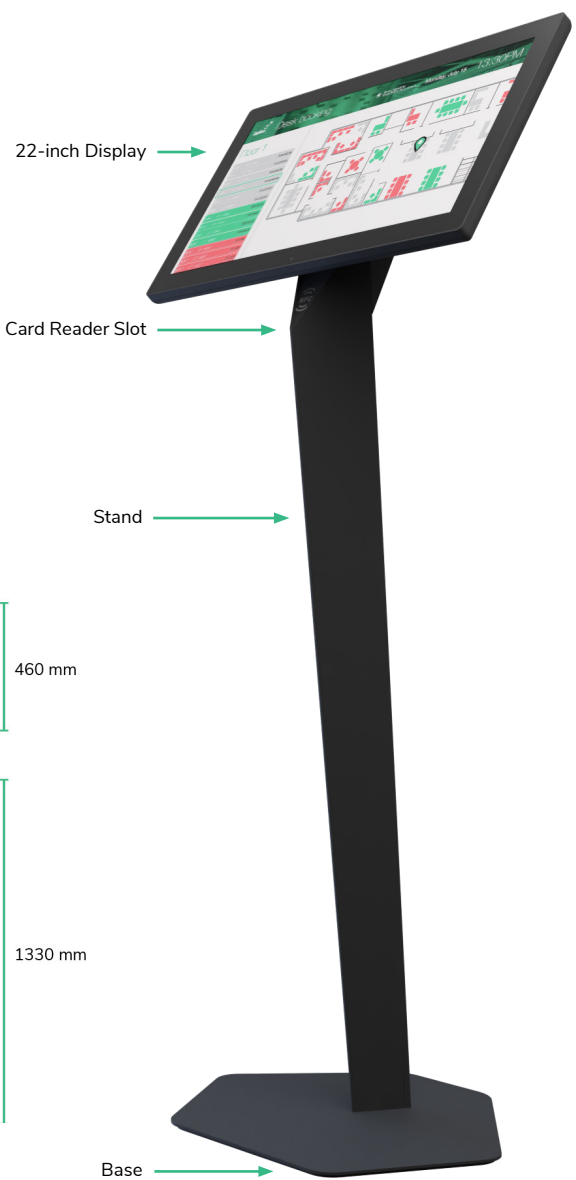

## Interactive Interaction

- ▶ Interactive Maps and Directions
- ▶ Real-Time Information and Updates

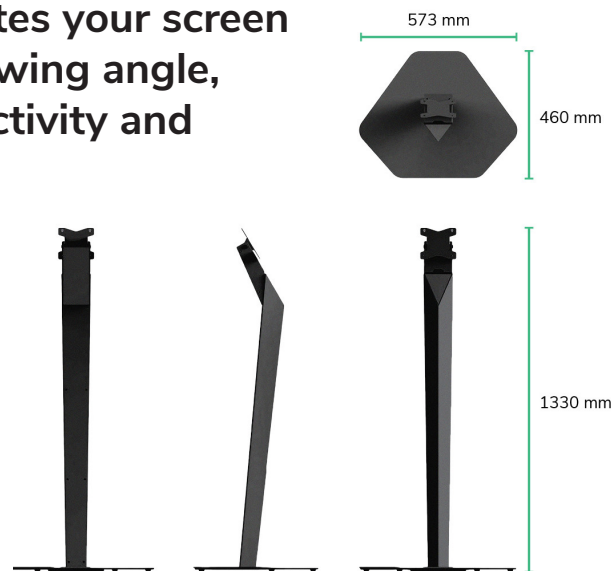

## Privacy and Security

- ▶ Authentication or login feature

## Effortlessly elevates your screen to the perfect viewing angle, enhancing productivity and reducing strain

Implement interactive wayfinding systems that enhance navigation, improve user experience, and contribute to the overall efficiency of hybrid workplaces.
