

Idea

# WRP-1000

## Enterprise Room Booking Panel

The essential enterprise-grade space reservation panel at the heart of your flexible workspace solution.

### Premium Design for Effortless Workspace Management

The centerpiece of your workspace reservation solution for total control — reserve, check in, or manage all in one place.

### Apple Wallet and HID Mobile Access Compatible

Embrace workplace digital transformation with mobile-first design for smartphone authentication

### Workplace Access Control

Combined room booking panel, card reader, and door lock control in one compact device

### Visitor Management

Simplify guest and visitor entry using QR Code check-in with an 8 MP optical scanner

### Authentication Options

Manage room entry through company NFC or HID badge authentication

### Two-Way Voice Communication

Directly speak to support via an echo-cancelling microphone and crystal-clear speakers

### Enterprise-grade Security

Google Android 12, ISO27001, 802.1x, and network encryption protection

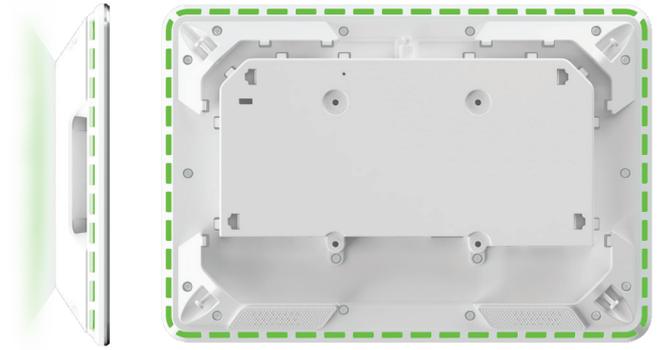

### Clean Installation

Single PoE cable with designated cable route for a clean, organized, and versatile installation

## Streamlined Space Reservation with Style

Elevate your space with integrated card readers for easy installation and minimalist design. The WRP-1000 sits at the heart of your space reservation solution. Reserve a workspace on the spot, book for later, or manage existing bookings with ease. It offers convenience software-based solutions can't match.

## Apple Wallet Integration

Embrace the mobile-first workforce with Apple's Enhanced Contactless Polling (ECP) integration. Simply tap your smart device for check-ins, access, and more.

## Enterprise focused features

The huge range of enterprise features, all packed into a minimalist and compact device make the WRP-1000 indispensable. Powerful space reservation management, integrated card and NFC readers, access control, two-way communication, and LEDs make it essential to any comprehensive workspace management solution.

## Door Lock Control Integration

WRP-1000 improves workplace safety, productivity, and efficiency with a reliable protection system, integrating with smart lock.

## What Happens on the Device Stays on the Device

### Data Stays Protected

- 802.1x ensures the facility's IT team have full authority over approving all in-field IAdea devices, and prevents rogue devices from being added to the network.
- HTTPS protects devices from unauthorized user access through encryption of the web interface.
- ISO 27001 Certification ensures all IAdea devices and services meet professional-grade security requirements.
- IAdeaCare enables administrators to remotely monitor and execute device configurations to reduce overstretching of admin resources and unexpected device failure.

## Broad certified software compatibility

Our hardware is certified compatible with most industry-leading integrated workspace management systems (IWMSs) and software. Pair the WRP-1000 with your choice of software for a complete and comprehensive space reservation solution.

## Glass

## Window

## Table Stand

### Zero-gap flush VESA mount

<b>Display</b>	<ul style="list-style-type: none"> <li>10.1" LCD panel</li> <li>10 points capacitive multi-touch</li> <li>350 nits maximum brightness</li> <li>1280 x 800 panel resolution</li> <li>Viewing angle (H / V): 160 / 160</li> <li>Programmable surround with wall projection</li> <li>LED light</li> <li>Front lens for identification</li> </ul>
<b>Internal Player</b>	<ul style="list-style-type: none"> <li>Processor: Cortex-A53 Octa-core</li> <li>System memory: 2.0 GB</li> <li>Flash memory: 16 GB eMMC built-in</li> </ul>
